

HomeBrace

Your home at your hands

MyEnvi

- The MyEnvi environment control for smartphone and tablet.
- The MyEnvi environment control by voice input.
- The MyEnvi environment control is easy to set up and customize.
- The MyEnvi environment control runs on iOS and Android devices.
- The MyEnvi environmental control system controls infrared and Eldat radio.

The control of the environment by smartphone and tablet can be done with the joystick of the electric wheelchair, by means of scanning, e. g. by sip/puff control, button or voice input.

The environment control can be connected to doors, windows, telephone, radio, TV and all other electrical devices in the environment.

We will be happy to advise you competently and without obligation.
